SUN PROTECTION POLICY

Help for non-English speakers

If you need help to understand this policy, please contact the Hampton Primary School office on 9598 1412.

PURPOSE

The purpose of this policy is to support sun smart protection behaviours at Hampton Primary School to minimise the risk of health problems from sun overexposure, including skin cancer.
This policy provides guidelines to:

- support staff and students to use a combination of sun protection measures when UV index levels are 3 or above (generally mid-August to the end of April in Victoria)
- ensure that there are outdoor environments that provide adequate shade for students and staff
- ensure students are encouraged and supported to develop independent sun protection skills to help them to be responsible for their own protection
- support our school's strategies to meet its duty of care and occupational health and safety obligations to minimise harmful UV exposure and associated harm for students and staff.

SCOPE

This policy applies to all school activities on and off-site, including camps and excursions. It is applicable to all students and staff.

IMPLEMENTATION

Overexposure to the sun's ultraviolet (UV) radiation can cause health problems including sunburn, damage to skin and eyes, and an increased risk of skin cancer. UV damage accumulated during childhood and adolescence is strongly associated with an increased risk of skin cancer later in life.
UV radiation:

- cannot be seen or felt
- can be reflected off surfaces such as buildings, asphalt, concrete, water, sand and snow
- can pass through light clouds
- varies in intensity across the day and the year (highest from mid-August to the end of April in Victoria, which covers most of the school year)
- peaks during school hours.

Sun safety is a shared responsibility and staff, parents and students are encouraged to implement a combination of sun protection measures whenever UV levels reach 3 or above. Information about the daily local sun protection times is available via the SunSmart widget and the free SunSmart Global UV app, or at sunsmart.com.au, or at the Bureau of Meteorology at bom.gov.au.

Hampton Primary School has the following measures in place for all outdoor activities during the daily sun protection times to help reduce the risk of over-exposure to UV radiation for staff and students.

Shade

Hampton Primary School provides sufficient options for shelter and trees to provide shade on school grounds, particularly in places such as:

- The canteen
- Outdoor lesson areas
- Play areas

Printed copies of this document are not controlled.

- Assembly areas
- Sporting grounds/pools

Students are encouraged to use available areas of shade when outdoors during peak sun protection times, particularly if they do not have appropriate hats or outdoor clothing.
When building works or grounds maintenance is conducted at Hampton Primary School that may impact on the level of shade available to staff and students, a review of the shaded areas available will be conducted and further shading installed as appropriate.

Sun protective uniform/clothing

Hampton Primary School recommends that from mid-August to end of April, and whenever UV levels reach 3 and above, students come to school wearing sun-protective clothing such as:

- loose, cool, densely woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeve
- longer style shorts, dresses and skirts
- rash vests or t-shirts for outdoor swimming activities.

Hampton Primary's uniform code includes sun-protective clothing, including:

- loose, cool, densely woven fabric
- shirts with a collar and/or high necklines
- tops with elbow length or long sleeves
- longer style shorts, dresses and skirt
  rash vests or t-shirts for outdoor swimming activities.

Hampton Primary's uniform code applies on and off-site unless otherwise advised. When students are not required to wear school uniform (such as school camps, free dress day), Hampton Primary school will ensure steps are taken to encourage students to wear sun-protective clothing whenever UV levels reach 3 and above.

Hats

From 1st September to 30th April, all students must wear a sun protective hat that shades the face, neck and ears for all outdoor activities. Hats may also be worn for all outdoor activities outside fo theses dates by parent or student choice.
Students wear a school hat which is a wide brimmed. Legionnaires or bucket hat.
Baseball or peaked hat and sun visors are not considered a suitable alternative, as they do not protect the ears, cheek or neck.
Students who are not wearing appropriate protective clothing or hats will be asked to use available areas of shade when outdoors or a suitable area protected from the sun.

Hampton Primary School encourages all staff and students to apply SPF50 or SPF50+ broad-spectrum, water-resistant sunscreen daily whenever UV levels reach 3 and above. Sunscreen should be applied at least 20 minutes before going outdoors, and reapplied every 2 hours (or more frequently if sweating or swimming).
Students and staff are reminded and encouraged to bring their own SPF50 or SPF50+ broad-spectrum, water-resistant sunscreen to school.
Hampton Primary School staff will remind students to apply sunscreen before going outdoors.
If students forget their sun screen the school has a supply for them to use in the first aid room. They are welcome to access this anytime. It is also supplied in all first aid bags for use offsite.
Sunscreen that is supplied by the school is stored below 30 degrees and the expiry date is monitored.

Printed copies of this document are not controlled.

Staff and students who may suffer from skin reactions from certain types of sunscreen, are encouraged to bring their own sunscreen to school to use to avoid reactions at school.

Sunglasses
Where practical, Hampton Primary School encouraged students and staff engaged in outdoor activities to wear close-fitting, wrap-around sunglasses that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible.

Curriculum
Students at our school are encouraged to make healthy choices. They are supported to understand effects of sun exposure and are encouraged to be involved in initiatives to promote and model sun protection measures to the whole school. Hampton Primary school will address sun protection and UV safety education as part of their learning.

Staff role-modelling and OHS
Staff are encouraged to access resources, tools, and professional learning to enhance their knowledge and capacity to promote sun smart behaviour across the school community. Staff may practice and role-model these behaviours even when the UV is below 3, particularly if they spend extended periods of time outdoors all year round.

UV radiation exposure is considered as part of our school's risk management and assessment for all outdoor events and activities, i.e. UV radiation protection strategies are included in school camp activities, excursions, sports days and interschool sports events.

Families and visitors
Families and visitors participating in and attending outdoor school activities are encouraged to:

- wear a sun-protective hat, covering clothing and, if practical, sunglasses;
- apply SPF50 or SPF50+ broad-spectrum, water-resistant sunscreen; and
- seek shade whenever possible when outdoors.

Community engagement
Sun protection behaviour is regularly reinforced and promoted to the whole school community through newsletters, school website/intranet, staff and parent meetings, school assemblies, student and teacher activities and at student enrolment/new staff orientation.
Families, students and staff are provided with information, ideas and practical strategies to support UV safety at school and at home. Hampton Primary School may provide information through newsletters, school website, compass and assemblies.
